Education

2021 - Present
BSc. In Computer Science
University of Colombo School of Computing

Bandaranayake College - Gampaha
- G.C.E. ADVANCE LEVEL-2019 - B,B,B
- G.C.E. ORDINARY LEVEL-2015 - 9A's

Expertise

- HTML
- CSS
- Java Script
- React
- Node Js
- Mongo DB
- MySQL
- Metirial UI
- Chakra UI
- Tailwind CSS
- PHP
- C#
- Python

Projects

Happy Tails - Pet Care System (Ongoing 3rd year group project)

I've been part of the Pet Care & Boarding (Happy Tails) project since June 2023. This project is all about making pet care easier and better for our customers. We're creating a system that lets people book vet appointments, keep track of pet vaccinations, and even have a safe place for pets to stay when their owners are away. We're also adding an online store for pet supplies and features to help pets look and feel their best. Being a part of this project shows my dedication to using technology to improve pet care and make it more convenient for pet owners.

Technologies : Node Js , React Js, Express Js , MySql , Material UI
Github Link - Happy Tails

Chilaw Sabha System (2rd year group project)

We made a web-based application for Chilaw Sabha, a place that handles important things. This system helps them do their work better and faster. It also has handling complaints and a library management system. We built it in a way that makes it easy for them to organize information and get things done. This system helps them do their job well and offer better services to the public

Technologies : HTML , CSS , Java Script , MySql , PHP
Github Link - ChilawSabha

Mini 2D Game Project

I've crafted an engaging single-player 2D game using Unity and C#, offering players a captivating journey across various levels within the game. Each page presents a unique and immersive experience. With easy-to-use controls and an engaging gameplay style, this game promises an enjoyable experience for solo players as they explore and conquer each page's distinct challenges. Dive into this captivating single-player 2D game, where every page brings new surprises and excitement!

Technologies : Unity Game Engine , C#

Personal Skills

- Teamwork
- Problem Solving
- Time Management
- Good Communication
- Leadership
- Self learning
- Responsible

Language

English

Sinhala

Volunteering

Member of Music Circle of UCSC(Rekha)

Extra Activities

- Certificate for Playing Badminton in school sports meet in 2018
- Member of the Science society
- Active member in Western & Eastern Musical Ochestras
- Island 1st certificate in classical ochestra

○ **Pizza Website**

I've crafted a pizza website using React.js, focusing on the front-end to create an appealing and user-friendly experience. This website features a diverse menu of pizzas, captivating visuals, and a smooth ordering process, all made possible through the dynamic React.js framework.

Technologies : React js
